

Keyword Tool for Review Articles

Instructions for use: Circle keywords not bolded or in italics. For each category, (e.g. Focus of Review) circle all terms that apply to a given review.

FOCUS OF REVIEW:

Addiction/Substance Use

alcohol abuse/use
drug abuse/use
over-the-counter drugs
gambling
smoking cessation
solvent abuse
street drugs
tobacco use

Adult Health

travel health
workplace health
job absenteeism
job satisfaction
urinary incontinence

Men's Health

intimate partner violence/
domestic violence – *see also*
Injury Prevention/Safety
prostate cancer
testicular cancer

Women's Health

female genital mutilation
hormone replacement
therapy
infertility
mammogram
intimate partner
violence/domestic violence
– *see also Injury*
Prevention/Safety
physical abuse
emotional abuse
sexual abuse/assault
violence against women

Infant Health

infant mortality
Sudden infant death
syndrome

Child Health

allergies
child growth & development
child maltreatment (e.g. child
abuse, child neglect)
ear infection
fever
hearing
speech language
vision

Adolescent Health

Senior Health
activities of daily living
caregiver
elder abuse – *see also Injury*
Prevention/Safety > violence
prevention
falls
urinary incontinence

Chronic Diseases

arthritis
asthma
cancer
breast cancer
cervical cancer
colon cancer
lung cancer
oral cancer
ovarian cancer
prostate cancer
skin cancer
testicular cancer
cardiovascular
blood pressure
coronary artery disease
high cholesterol
hypertension
stroke
chronic obstructive pulmonary
disease (COPD)
dementia/Alzheimer's disease
diabetes
obesity
osteoporosis
lifestyle behaviours
nutrition
physical activity
tobacco use
sun safety

Communicable Disease/ Infection

bacterial infections
diphtheria
helicobacter pylori
impetigo
Legionnaire's disease
Lyme disease
pertussis/whooping cough
Staphylococcus infection
streptococcal infection
tetanus
tuberculosis
blood borne diseases
disease outbreaks
disease transmission
food borne diseases – *see*
Food Safety & Inspection
head lice/pediculosis
hepatitis
malaria
meningitis
pink eye/conjunctivitis
pinworm
pneumonia
ringworm
scabies
sexually transmitted
infections – *see Sexually*
Transmitted Infections
(STIs)
tapeworm
toxoplasmosis
viral infections
avian flu
coronavirus
hand foot mouth disease
hantavirus
HIV (non-sexual transmissic
e.g., occupational exposu
mother-to-child, blood
transfusion)
influenza
measles
mumps
Norwalk virus
poliomyelitis
rabies
rhinovirus/common cold
rotavirus
rubella
SARS
varicella zoster virus
West Nile virus
waterborne diseases
zoonoses

Healthy Communities

community development
community health centers
community health planning
community health services
community wellness
multicultural health
refugee and immigrant
health
rural health
urban health

Dental Health

dental care
dental caries
dental implants
fluoride
gum disease
gingivitis
periodontitis
oral diseases
oral health
oral hygiene

Emergency Preparedness & Response

criminal/terrorist attacks
natural events
earthquake
fire
flood
pandemic

Environmental Health

air pollution
 air quality
 ETS (environmental tobacco smoke)
 allergies
 asbestos
 built environment
 carbon monoxide poisoning
 chemical exposure
 chemical safety
 environmental epidemiology
 environmental exposure
 environmental pollution
 electromagnetic fields
 extreme temperature
 hazardous waste
 insecticides
 lead poisoning
 mould
 noise exposure
 pest management
 pesticides
 radiation exposure
 sewage disposal
 swimming pool
 UV radiation
 water pollution
 water supply

Food Safety & Inspection

botulism
 bovine spongiform encephalopathy
 e. coli
 hepatitis A
 salmonella
 fish borne
 shellfish borne
 food borne outbreaks
 food contamination
 food handling
 food poisoning
 food premise inspection
 food processing & inspection
 food service inspection
 food safety

Injury Prevention/Safety

air bags
 collision
 carpal tunnel
 drowning
 impaired driving
 falls
 injury
 poisoning
 safety
 violence prevention

Mental Health

antisocial behaviour
 anxiety disorders
 autism
 attention-deficit and disruptive behaviour disorders
 attention-deficit/hyperactivity disorder (ADHD)
 conduct disorder
 oppositional defiant disorder
 borderline personality disorder
 bullying
 concurrent disorders
 eating disorder
 anorexia
 binge eating
 bulimia
 mood disorder (e.g., bipolar disorder, depression)
 panic disorder
 post traumatic stress disorder
 schizophrenia
 self esteem
 stress
 suicide

Nutrition

body image/self-concept
 breastfeeding – *see Reproductive Health*
 calories/caloric (intake, restriction)
 diet
 eating behaviour
 eating disorders – *see Mental Health*
 folic acid
 food intake
 food security/insecurity – *see Social Determinants of Health*
 food services
 fruit OR vegetables
 healthy weight
 supplements

Parenting

autism – *see Mental Health*
 child guidance/discipline
 child protection
 coping with childhood illness
 family functioning
 family support
 maternal child health
 parent-child attachment/bonding
 parenting
 postnatal care
 postnatal depression

Physical Activity

active living
 active transportation
 exercise
 health behaviour
 healthy weight
 leisure activities
 obesity prevention
 physical education
 physical fitness
 physical inactivity

Reproductive Health

adolescent pregnancy
 birth defects
 breastfeeding
 fetal alcohol spectrum disorder
 low birth weight
 maternal health
 preconception care
 pregnancy
 prenatal care
 prenatal health
 preterm labour

Sexual Health

pregnancy prevention
 abstinence
 contraception
 condom use
 family planning
 LGBTTTQ (lesbian, gay, bisexual, transgender, transsexual, two-spirited, queer)
 sexual abuse
 sexual assault
 sexual behaviour

Social Determinants of Health

employment and working conditions
 education and literacy
 food security/insecurity
 housing/homelessness
 income and social status
 social environments
 social justice

Sexually Transmitted Infections-STIs

acquired immunodeficiency syndrome
 chlamydia
 gonorrhoea
 herpes
 HIV
 human papillomavirus
 syphilis
 trichomonas
 vaginitis

TYPE OF REVIEW: meta-analysis narrative systematic

POPULATION CHARACTERISTICS:

Age Groups:	Gender:
Infants (0-1)	Female
Preschool aged (1-4)	Male
Grade school aged (5-12)	Low Socioeconomic Status
Adolescents (13-19)	Cultural group
Adults (20-64)	First Nations, Metis, and/or Inuit
Seniors (65+)	General public/all age groups
Family	High Risk Group

INTERVENTION LOCATION: (Circle all that apply)

Camp	Internet
City/regional/provincial/state/national	Mail
Clinic	Nursing home/long-term care facility
Commercial site	Primary health care provider
Community	Public places (e.g. Skating rink, park)
Community/recreation centre	Religious institution
Community health centre	Residential centre
Correctional institution	Restaurant
Day care centre	Rural/Remote
Dentist	School
Farm	preschool
Health bus	grade school
Health departments	secondary school
Highways	post-secondary school
Home	Telephone
Hospice	Worksite
Hospital	Other: _____

INTERVENTION STRATEGIES: (Circle all that apply)
